

Quality Cryogenic Storage

IVUS Cryo Tubes are developed for storing valuable samples within cell banking and biobanking. Furthermore it's designed to provide users with a safe and handy solution for pharmaceutical tests, research and for transportation of biological materials.

The IVUS Cryo Tubes are one of the most complete lines of cryogenic vials available and very popular due to its unique features.

- ✓ Space-saving. 23% more storage without the cost of additional storage extension.
- ✓ The unique straight-line design minimizes the risk of contamination.
- ✓ Designed and manufactured in Denmark

23% more storage capacity

The unique design of the tube and cap, makes this cryo tube the only one, which can be stored in standard 10x10 cryo box. This gives you 23% additional storage capacity compared to conventional cryo solutions.

Working advantage

The special designed cap, with the lip seal feature, ensures 100% leak proof. The cryo box has oblique corners for quick identification and handling. The starfoot grip at the bottom allows quick removal and fitting of the lids.

Ergonomical benefits

IVUS cryo tubes are featured with a single-handed quick seal closure. The super fast thread design allows tightening or removal with only a half turn, thus avoiding long-term injuries to the user.

Cryogenic Storage - Selection

IVUS Cryo Tubes Non-Sterile

IV-8005	Cryo vial 0,5ml starfoot, w/seperat lid	1000 pcs
IV-8010	Cryo vial 1,0ml starfoot, w/seperat lid	1000 pcs
IV-8020	Cryo vial 2,0ml starfoot, w/seperat lid	1000 pcs
IV-8040	Cryo vial 4,0ml starfoot, w/seperat lid	1000 pcs
IV-8050	Cryo vial 5,0ml starfoot, w/seperat lid	1000 pcs

IVUS Cryo Tubes Sterile

IV-8005-S	Cryo vial 0,5ml w/lid, starfoot, graduation & writing area	10X100 pcs
IV-8010-S	Cryo vial 1,0ml w/lid, starfoot, graduation & writing area	10X100 pcs
IV-8020-S	Cryo vial 2,0ml w/lid, starfoot, graduation & writing area	10X100 pcs
IV-8040-S	Cryo vial 4,0ml w/lid, starfoot, graduation & writing area	10X100 pcs
IV-8050-S	Cryo vial 5,0ml w/lid, starfoot, graduation & writing area	10X100 pcs

IVUS Tube Inserts

IV-8100-B	Identification tube inserts, one color: Blue*	5X100 pcs
IV-8101-RB	Identification tube inserts, turnable, two colors: Red/Blue*	6X100 pcs

IVUS Cryo Box

IV-8210-05N	10x10 room for 0,5 ml tubes h:32cm, coded, color: Nature*	10 pcs
IV-8210-1N	10x10 room for 1,0 ml tubes h:40cm, coded, color: Nature*	10 pcs
IV-8210-2N	10x10 room for 2,0 ml tubes h:50cm, coded, color: Nature*	10 pcs
IV-8210-4N	10x10 room for 4,0 ml tubes h:80cm, coded, color: Nature*	10 pcs
IV-8210-5N	10x10 room for 5,0 ml tubes h:90cm, coded, color: Nature*	10 pcs

*Available in more colors.

Nice to know - Quality standards

- Quality test performed by Dansk Teknologisk Institut.
- 20-years-life-cycle-test performed by Dansk Teknologisk Institut.
- Manufactured according to ISO 9001, ISO14001 and ISO13485.
- Manufactured of FDA-approved, medical grade polypropylene.
- Manufactured in at clean room environment.
- Sterilized after ISO 11137-2:2013 - "Sterility Assurance Level" (SAL) by standard products 10^{-6} .
- Full VDMax25 validation test performed from first production day.
