

Touchless Urine Sampling Kit

Do you get the right test result?

Up to 42% of urine specimens are contaminated which leads to incorrect results.

Sterile and proper urine collection can reduce this by up to 77% (LaRocco et al. 2016).

IVUS Hygienic Urine Sampling Kit are developed to simplify and facilitate clean, hygienic and sterilized urine collection for regular and advanced testing.

Touchless Urine Sampling means, no spill and no mess. Vacuum sampling from the beaker to the tube, secure that the clinical employees don't have to handle the urine sample. The urine will stay in a closed system until testing. The patient receives a combined kit, including a moist skin cleaning towel and a cleaning instruction of urethral. The cleaning with the moist skin towel avoids sample contamination and gives less false positive results. Produced according to CE-IVD guidelines.

- ✓ Sterilized, reliable and ready to use for microbiological urine tests
- ✓ Safe, hygienic and easy-to-use
- ✓ Touchless vacuum sampling

User friendly - No contamination

IVUS kits comes in a box or in a peel-pack-bag and contains all that the patient needs for a single urine sample collection. The kits are easy to open for the patients. The manual drawings are simple to understand and thereby reduce the risk of contamination.

Working advantage - Easy & clean

The IVUS urine sampling comes in one kit and is easy to hand out for the clinical worker. The unique design ensures that the urine will stay in a closed system until testing, which minimize spill and mess.

Hygienic Urine Sampling - Selection

The IVUS kits are packed in peel-pack bags or boxes and contain all you'll need for single-use sample collection for biological analysis. IVUS is dedicated to deliver the highest standard within urine kits to hospitals and laboratories to provide the best test results, and therefore all kits are sterilized. They are lot traceable and produced according to CE-IVD guidelines.

IVUS Urine Kits

IV-1020	Box kit: urine beaker, 9 ml vacuum U-tube, wet wipe, manual	100x1 set
